Education

Sep 2011 - University Of Glasgow

Present Master in Science (MSci) Computing Science and Mathematics

Expected to graduate July 2016

Awards:

- O'Reilly Academic Prize for Best Overall Performance in Assessed Coursework in level 1 Computing Science in Session 2011-12
- Level 4 Combined Honours Class Prize

Sep 2009 - Shenley Brook End Sixth Form

Jul 2011 A Levels

Grades:

- Computing A*
- Mathematics A*
- Further Mathematics A

Awards:

• Young Programmer Of The Year 2010 - 2011

Work Experience

Jun 2015 - Toshiba Medical Visualization Systems Europe (TMVSE)

Aug 2015 Software Engineering Intern

Over the course of my 13 week internship at Toshiba I developed a performance monitoring tool for one of their key infrastructure systems. This was intended to help pinpoint specific areas of their system which could be causing potental bottlenecks.

Technologies: C++11, Javascript, Qt, Mercurial, Visual Studio.

Nov 2013 - Farmgeek

Apr 2014 Android Developer Intern

During my 3rd year at Glasgow University I worked 1 day a week at Farmgeek helping to develop a prototype Android application called Agricountant. This application was a stock control management system for livestock farms, that helps farmers measure their farms' performance and improve animal welfare standards.

Technologies: Java, Android, Git, Gradle, Linux.

Jul 2012 - Gulliver's Theme Parks

Aug 2012 Ride Operator

Over the summer of 2012 I worked as a Ride Operator at Gulliver's Land, this involved a number of responsibilities, including:

- Following device maintenance and safety procedures to ensure the safety of guests on the rides.
- · Assisting guests with any queries they may have.
- Responding to emergency situations effectively and reporting these to a manager in a timely manner.

Open Source Projects

2014 - Gameboy Color Emulator

Current https://github.com/RossMeikleham/PlutoBoy

A portable Gameboy color emulator written in C, built as a hobby project.

2014 - Design And Compilation Of A Front End Language For The Glasgow Parallel Reduction Machine

2015 https://github.com/RossMeikleham/GPC (Code Repository)

https://github.com/RossMeikleham/Dissertation (Project Dissertation Repository)

For my honours year project at the University of Glasgow I designed a language called GPC; which is a subset of C++11 extended with a couple of new keywords to specify parallel or sequential evaluation of statements in blocks of code. The language is essentially a parallel evaluated communication language which manages composition of ordinary C++ code. I wrote the compiler using Haskell.

Skills

Languages

- Proficient In C, C++, Java, Haskell
- Familiar With Python, Javascript, Matlab, Pascal

Software Engineering

- Version Control Git, Mercurial
- Unit Testing JUnit(Java), HUnit(Haskell), Qt Test(C++)
- Continuous Integration Travis CI (Used for personal/open source projects), Jenkins
- Agile Methodologies Test Driven Development(TDD)

Linux

- Distributions Fedora, Arch Linux
- Shells Bash, Zsh

Other

- Frameworks Qt, SDL
- Other Technologies Vim, LTEX

Interests

Functional Programming, Open Source Development, Linux, Parallel Programming
